

HERNÁN RAMIRO ALBORNOZ

Full Stack Developer | Backend (Node.js · TypeScript)

San Miguel de Tucumán, Argentina | hralborn@hotmail.com
linkedin.com/in/hernan-ramiro-albornoz | github.com/HRamiroAlbornoz

PROFESSIONAL SUMMARY

Full Stack Developer and Henry Bootcamp graduate, backend-oriented, with a core stack in Node.js, Express, TypeScript and PostgreSQL. Experienced in building REST APIs end to end — including authentication, automated testing (Vitest, Supertest) and production deployment — within team projects managed through Git Flow, code review and agile methodologies. Focused on writing simple, maintainable and well-tested code, and on understanding the problem before solving it. Currently seeking a first developer role in a remote setting to contribute to a team and keep growing professionally.

FEATURED PROJECTS

NEXOPAY — Multi-Currency Digital Wallet Feb. 2026 – Jun. 2026

Backend Developer · Henry Bootcamp capstone project · Team of 3

Simulated digital wallet with multi-currency support (ARS / USD / EUR): currency buying, selling and exchange, peer-to-peer transfers and shared expenses.

- Designed and implemented the backend with Node.js, Express and TypeScript, modeling a PostgreSQL database with a 7-table ERD and an immutable transaction ledger.
- Developed a 20-endpoint REST API with JWT authentication, integrating the Frankfurter API for exchange rates with in-memory caching.
- Implemented transactional email delivery with AWS SES and a support chatbot powered by Gemini.
- Coordinated teamwork through Git Flow and code review across a 54-task board over 2 sprints, deploying the backend on Railway and the frontend on Vercel.

Stack: Node.js · Express · TypeScript · PostgreSQL · JWT · Railway · Vercel

Repositories: [nexopay-api \(backend\)](#) · [nexopay-client \(frontend\)](#)

AutomateHub — MCP Server for GitHub 2026

Individual project

MCP (Model Context Protocol) server exposing GitHub API operations as tools for AI assistants.

- Implemented 13 tools on top of the GitHub API (Octokit) in TypeScript, with composable and reusable operation wrappers.
- Wrote a 100-test suite with Vitest mocking Octokit, achieving broad coverage without depending on the live API.
- Designed a custom error hierarchy and structured logging to simplify debugging and maintenance.

Stack: TypeScript · Node.js · MCP · Octokit · Vitest

Repository: [ProyectoM5_HernanRamiroAlbornoz](#)

MateCode — Task Manager (SPA) 2026

Individual project

Single-page application for task management featuring a kanban-style board with drag and drop.

- Built the interface with React and TypeScript, implementing drag-and-drop functionality with dnd-kit.
- Integrated Firebase for authentication and data persistence, and AWS SES for email notifications.
- Deployed the application to production on Vercel.

Stack: React · TypeScript · Firebase · dnd-kit · Vercel

Repository: [ProyectoM4_HernanRamiroAlbornoz](#)

EDUCATION

Full Stack Web Developer — Henry Feb. 2026 – Jun. 2026

- Intensive full-time full stack web development bootcamp: JavaScript, TypeScript, React, Node.js, Express, PostgreSQL, testing and teamwork with agile methodologies.
- Capstone project: NEXOPAY, a multi-currency digital wallet built end to end as a team.

EXPERIENCE

PC Building and Maintenance — Self-Employed

- Assembled and configured custom computers according to each client's needs.
- Diagnosed and resolved hardware and software failures, optimizing system performance.

Sales Associate — Convenience Store

- Served customers and handled cash register operations, providing fast and customer-oriented service.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL

Backend: Node.js, Express, REST APIs, JWT

Frontend: React, HTML, CSS

Databases: PostgreSQL, Firebase (Firestore)

Testing: Vitest, Supertest

Tools: Git, Git Flow, GitHub, Railway, Vercel, Swagger, Claude Code

Other: MCP (Model Context Protocol), API integration (Gemini, Frankfurter)

Methodologies: Scrum / Agile

Soft skills: collaborative teamwork, problem solving, early communication of blockers, continuous learning.

LANGUAGES

Spanish: Native

English: B1 — Intermediate ([EFSET certificate](#))
